BIG SPECIMEN CAMELLIAS
SHIPPED IN CONTAINERS
INDIVIDUALLY CRATED

FOR THE DISCRIMINATING TRADE
632 S. BALDWIN AVE.-PHONE ATLANTIC 68952
TEMPLE CITY, CALIFORNIA

Mail Address - Box 428

Plants are container grown from the start -
These plants can be left to grow in the containers for 2 seasons -
These big plants are from 4-to-6 feet up - depending upon the habits
of growth of the different varieties. Their ages range from seven
to twelve years. Some of the plants have over fifty buds at this date.
Some were grafted several years ago on 10 year understock - the price
asked now is much less than one would expect - for such fine stock.
Order in any quantity you wish - however on orders for TEN or more of
these fine plants we will pay the express - otherwise express collect.

These are the varieties we can send now - but what stock we are listing
is subject to prior sale - and when the limited supply we have to sell
is all gone - none will be available again in seasons to come.

Daikagura Marbled	\$14.75	each
High Hat Daikagura	17.50	each
Glen Forty	17.50	each
Pax	17.50	each
Debutante (10) yr	14.75	each
Debutante (7) yr	9.75	each

These are the finest varieties
we know of for commercial ----
flower production. With these
flowers for sale would be a --
reality - from about October -
first through into April or May,
The varieties represent - early,
mid-season and late bloomers.
Their flower production in this
season could well pay out their
costs and return a profit too.

Terms- Cash with order
No COD'S -----

The strongest - but still
the lightest in weight -
of any crating - these big
plants weigh about 35 lbs.
